Please leave your comments or suggestions concerning the MISD ESSER III Back-to-School Plan.

With the delta variant hitting children and the cases we have seen from other schools not mandating mask, it is a huge concern for me as a parent to a special needs child. Gov Abbott has zero concern for our children and I think McGregor needs to rethink the mask protocol. Let Dallas, SA and others be a great example of putting our children's safety first on how it should be handled at McGregor. I will be keeping my child gone for the first week of school and I predict a closure due to an overwhelming amount of children that will test positive.

Closed campuses should be done away with since businesses and even churches are open. Water fountains could be on or install water filling stations for water fountains to fill water bottles. Children should not have to fill their bottles in the bathroom.

I'm very happy about the school plan that has been put in place for our children. I'm so relieved my kids will experience some normalcy again. I'm confident they will have a good year this school year! thank you!

1 response

Keep schools closed to parents or anyone not working in a campus. We do not need parents to eat with their child or children. It worked last school year it can work this school year.

I'd like to have my classroom wiped down between AM and PM groups I asked for that last year but it didn't get done. I worry since 2 groups of kids share that space.

If remote instruction is not available, what will the procedure(s) be for classrooms/campuses who have positive covid cases?

1 response

I agree with the plan set forward for this upcoming school year. Thank you

1 response

What is the policy for quarantine this year with no remote learning?

1 response

Use the funds to make all lunches free again

1 response

Keep all campuses closed to parents

1 response

use of mask and distancing

1 response

Looks good to me!
