### Please leave your comments or suggestions concerning the MISD ESSER III Spending Plan.

I would like to know why Waco ISD, Robinson ISD and other schools are using ESSER monies to provide an additional \$10,000 to each teacher's salary, above and beyond their 3% raise (WACO ISD) over a 1.5-2 year period installments of \$2500. All custodial, aids and other staff also are receiving a nice raise. I do know see any finances going toward teacher salaries, Maybe I missed an email. I am not sure how much monies the district will be receiving.

I see monies going to the HOT COOP for Exceptional Children but nothing for children with an IEP. My son has an IEP that is not being addressed because, as I am told, the school does not have the fund's to handle the situation. This is not right and has left him to flounder and feel like he is just really stupid. Thank you McGregor High School for giving him a really good feeling about himself!

Technology equipment upgrades (chromebooks/iPads). Elementary school updates to flooring, lightening so all lights work properly, fresh paint for walls, and fix leaking roof. Elementary is showing much more wear than any other campus.

Have masks and safety plans for teachers and all staff. Covid is not going anywhere and the numbers keep rising! Please listen To the science! This has nothing to do with politics! Protect our staff and children!

Add funding to give better coverage and weather protection for teachers and students at drop off and pick up areas especially to decrease in office student pick ups with bad weather.

1 response

Increased salary for teachers. Increased budget for teachers to purchase classroom supplies so they aren't spending their own money all the time.

1 response

I don't have any comments. I think that the plan is really good food our kids.

1 response

Plan to spend it on ppe and covid prevention

1 response

sanitary precautions
